Summary

My goal is to excel as a front-end developer by utilizing my skills in HTML, CSS, JavaScript, Tailwind CSS, and React.js. I am dedicated to crafting responsive, user-friendly web interfaces that enhance user experience and performance. With a strong foundation in modern web technologies and a collaborative mindset, I strive to contribute to impactful projects, support team growth, and drive digital innovation.

Education

Daffodil International University
Computer Science and Engineering

BSc

Projects

Histo Track

React, Firebase, Node.js, Express.js, MongoDB, Swiper.js, Framer Motion, JWT
🔗 <https://histotrack1.web.app/>

Developed a full-stack web application that allows users to securely sign up, log in, and manage artifacts with features such as adding, updating, deleting, and viewing their own and liked artifacts. Implemented Firebase Authentication and JWT for secure user access, along with private routes to ensure privacy. Built the backend with Node.js, Express, and MongoDB to handle CRUD operations on artifact data. Enhanced user experience by integrating Swiper.js for interactive image sliders and Framer Motion.

Law BD

React, Firebase, React Recharts
🔗 <https://find-lawyers-bd.netlify.app/>

Built a lawyer booking platform that enables users to view all available lawyers, book appointments, and cancel bookings. Integrated Firebase for secure authentication and real-time data management. Developed a blog section for legal insights and used React Recharts to visualize statistics related to bookings and lawyers.

Skills

Frontend

Java Script (ES6+), React.js, Firebase Authentication, CSS3, Tailwind, HTML5
● ● ● ● ○

Backend

Node.js, Express.js, MongoDB
● ● ● ○ ○

Version Control

Git, Github
